Product Specification Sheet

Brake Oil

Reliable quality, trusted performance

BRAKE OIL

Brake Oil is a premium quality hydraulic brake fluid specially formulated to ensure safe, responsive, and consistent braking performance under extreme driving conditions. Designed to meet DOT 3 and DOT 4 specifications, it provides excellent thermal stability, moisture resistance, and corrosion protection for modern braking systems.

Its high boiling point performance minimizes vapor lock, ensuring dependable braking even at elevated temperatures.

Available Grades:

- Brake Fluid DOT 3
- Brake Fluid DOT 4

Analytical Test	Typical Specification	
	Brake Fluid Dot3	Brake Fluid Dot4
Appearance	Clear & Bright	Clear & Bright
ERBP °C	Min 215 °C	Min 245 °C
WET ERBP °C	Min 140 °C	Min 150 °C
K. Viscosity @ 100 °C	Min 1.50	Min 1.50
PH Value	7.00 To 11.50	7.00 To 11.50

Advantages :

- High Dry & Wet Boiling Point
- Prevents Vapor Lock Formation
- Excellent Thermal Stability
- Superior Moisture Resistance
- Protects Against Rust & Corrosion
- Compatible with Modern Brake Systems
- Ensures Smooth & Responsive Braking
- Long Service Life
